RE: RFP #02-2023 - PW 0822 Design and Engineering and the Hydrologic and Hydraulic Study for Reconstruction of Nine Flood Damaged Roads

ADDENDUM NO. 23-01

Updated and Additional Information

Notice to RFP Submitters: This addendum forms a part of and modifies the RFP as follows. Failure to acknowledge the addendum in the Proposal Certification may result in a rejection of your bid.

Page 1, Overview, is amended as follows: **(BOLD and Underlined Sections are Added)**

OVERVIEW.

City of Houston requests proposals from experienced engineering firms with the ability to assist the city assessment of flood damage and the design of the flood damaged reconstruction of nine roads necessary to meet all the Mat-Su Borough Permitting and reconstruction requirements. **Funding for this project is from State Disaster Recovery AK-22-288, 2022 August Mat-Su Flooding. The contractor must provide a design and cost estimate to bring each site back to pre-disaster capacity and function listing any required code and standards and mitigation proposals separately. The contract will include a provision for change orders and payment parameters. DHS&EM must pre-approve change orders if there is a Scope of Work change or cost increase. The State is not responsible for late fees.**
