November is upon us with its glory, cold, and ice. We have had a very active month with vehicle accidents including two on the exact same corner of the Parks Highway between Cheri Lake Road and Danna Court. We cannot emphasize enough to drive for conditions and not for schedule, the risks just aren't worth it.

There was one carbon monoxide call (CO) that we did find a faulty furnace at fault. A large structure fire off of Airolo required response from mutual aid agencies at West Lakes, Willow, and Central Mat-Su FD's including Central Mat-Su's large Truck 51 which is a full sized ladder truck. It was a challenge to get it to the site but crews quickly overcame all obstacles. We did have to return to the scene multiple times through the night because we were unable to enter the structure to extinguish it fully until the next day when we had light to work with. Safety always comes first, and if nobody's life is at risk there is no reason to create a life risk.
